Findings of Facts & Conclusions of Law

21Y and 22X - charge violation of 19-121(a), placing material or equipment on sidewalk without a permit. Respondent argues that the section sought to be enforced refers to the Commissioner of Transportation. This is not a section enforceable by the Commissioner of Sanitation. DOT is not exclusively the agency to enforce this violation. DSNY (or other agencies) can also enforce sections that may also be applicable to its jurisdiction. Respondent argues that Petitioner failed to identify Respondent as the entity responsible for the property and Respondent is not the owner. I credit respondent's argument and dismiss these summonses as they fail to establish a prima facie case against Respondent.

23H and 24J and 35N, 36P and 37R- all charge the same section of law (although 23H states its obstructing pedestrian walkway and 22X is for a dirty sidewalk and the others are for failing to clean 18" into the street). Respondent argues that Petitioner failed to identify Respondent as the entity responsible for the property and Respondent is not the owner. I credit respondent's argument and dismiss these summonses as they fail to establish a prima facie case against Respondent. Therefore, these must be dismissed.
