Findings of Fact & Conclusions of Law

The hearing was held via telephone of 7/14/2025. The respondent appeared by authorized representative, Mr. Lance Chebin. The petitioner did not appear.

The summons alleges a third/subsequent offense violation of AC 24-163 for idling a truck with NY license plate #10476MA longer than three minutes at the intersection of Emerson Place and Park Avenue in Brooklyn. It cites prior summons numbers 000705281N and 000775366X.

Mr. Chebin did not contest the validity of the cited prior summonses. He stated that while the respondent generally denies the

violation, he will present no evidence or argument in rebuttal.

I credit the sworn statements in the summons and find the petitioner has established a valid charge. Given Mr. Chebin's statements, I find the respondent has not rebutted the charge.

I sustain the summons and assess the \$600 mandated third/subsequent offense penalty.
