Findings of Fact & Conclusions of Law

The hearing was held on January 21, 2026. ILMA BABU appeared on behalf of Respondent. Senior Insp. Monica Dorson appeared on behalf of DEP. The summons charges a violation of 24-146 (B) DUST ALLOWED TO BECOME AIRBORNE.

Petitioner provided an evidence packet containing the original citizen complaint acknowledged by the citizen and a video showing the Respondent workers loading debris into a truck.

Code § 24-146(b) provides, "No person shall cause or permit any material that may generate dust to be transported or stored without taking such precautions as may be ordered by the commissioner or as established by the rules of the department to

prevent dust from becoming airborne." Once Petitioner established its prima facie case, the critical inquiry became whether any credible evidence in the record, such as testimony or affidavits from the Respondent's employees present at the time of violation, refuted its case, or otherwise established an affirmative defense "by a preponderance of the evidence." See DEP v Citnalta Construction Corp., Appeal No. 2201191 (February 23, 2023); 48 RCNY § 6-12(a).

Respondent denies the violation and argues reasonable efforts were made to mitigate the airborne dust. Respondent provides an employee affidavit that states the debris and materials were hosed down prior to being placed in the truck, during and after completion to prevent dust from going airborne. In the video there is no evidence of dust and debris being airborne. In the video the employees are spraying the debris with water to eliminate dust.

Respondent has presented a credible defense. I credit Respondent testimony and evidence .

Therefore, summons is dismissed.
