Findings of Fact & Conclusions of Law

Petitioner, NYC Department of Environmental Protection, appeared; by Leah Smith. Respondent, appeared by authorized representative, Lance Chebin.

The summons sets forth a violation of NYC Administrative Code, section 24-163, idling of a motor vehicle engine for more than 3 minutes.

Ms. Smith stated that she would rely on the allegations as set forth in the summons and produced supporting documents. She noted that at the cited time, the lift gate was not in use.

Mr. Chebini argued that the truck was making pizza deliveries; that the refrigerator was in use; that the engine had to be on to charge the battery to use the lift gate and produced supporting documents.

I find that the summons sets forth a prima facie case. I don't credit Mr. Chebon's argument and I find that he has not rebutted the allegations as set forth in the summons.

Accordingly, the summons is sustained and the mandatory penalty is imposed
