Findings of Fact & Conclusions of Law

The hearing was conducted by telephone on Court Call on May 5, 2026. Petitioner was represented by Inspector Jaqueline Singh. Respondent was represented by authorized representative Ilma Babu.

The summons charged a violation of 24-236(e) of the Administrative Code, noise from a motor vehicle engine exceeding sound level allowed by 386 of the NYS Vehicle and Traffic Law. The summons alleged the respondent's vehicle registered 91.7 db(a) measured by a sound camera from 50', exceeding the 85 db(a) allowable under VTL 386. Petitioner offered into evidence three short videos taken by the camera, which were viewed during the hearing, as well as still images and a graph reading showing the noise level recorded (Exhibit 1).

Respondent did not rebut the allegations in the summons, but asserted respondent is repairing her muffler to reduce the sound level. I do not find that respondent has established a defense to the charge.

I credit the summons. The summons is sustained.
